LECTURE SERIES

ON

“Artificial Intelligence in Education: Enhancing Teaching and Educational Innovations”

Report of the day

Today, on 10 December 2025, a lecture was organized on the sub-topic of Use of Artificial Intelligence in Guidance and Counselling. In today's lecture session Prof. (Dr.) Tanwir Yunus Professor & Head University Department of Education VBU, Hazaribag was special invited as a resource person to give lecture on the topic “use of Artificial Intelligence in guidance and counselling in lecture series at seminar hall of Swami Dharmabandhu college of education Harhad Hazaribag .the resource person explained important and basic elements of guidance and counselling with the help of AI in teaching learning processes.

The session highlighted logic-based learning strategies, lack of self-confidence, and practical methods for confidence building. Various problem-solving approaches in counselling and ways to address students' academic and behavioural issues were discussed.

Many challenges and issues occurred in the counselling process-such as societal pressure, wrong decision-making etc. he guided students to choose the right direction based on his/her interest, talent, capacity, and ability were elaborated scientifically. The resource person added special focus on the importance of AI in guidance and counselling. AI not only helps in analysing student performance but also understanding behaviour patterns, personalizing learning, and offering career guidance. The speaker also linked the evolution of AI with the agricultural, industrial, and IT revolutions, showing its growing impact on education.

Conclusion

The session concluded that guidance and counselling must combine scientific tools with human understanding. With technological advancement, AI has become a powerful support system that enhances counselling quality and helps educators understand students more accurately. Overall, the lecture was highly informative and beneficial for the learners as well as teacher educators.
