Venue:- Banha village

Chief Guests / Mentors / SI: Dr. Sonika Kumari
Principal

1.

Activity Topics:- AIDS Awareness Program

Activity Details:- On April 6, 2024, Surumi Dhamabandhu College of Education organized an AIDS Awareness Program aimed at educating students about the prevention, transmission, and stigma surrounding HIV/AIDS. The event comprised a rally followed by a lecture delivered by college faculty members.

The day commenced with a vibrant rally by the college. Students, faculty, and staff actively participated, carrying placards and banners with informative messages about AIDS prevention and destigmatization. The rally aimed to raise awareness among the college community and beyond, emphasizing the importance of knowledge and proactive measures in combating the spread of

HIV/AIDS

Following the rally, a lecture was conducted by Principal Dr. Saxika Kumari in classrooms followed by esteemed faculty members. The lecture covered various aspects of HIV/AIDS, including transmission modes, preventive measures, treatment options, and the importance of empathy and support for individuals living with HIV/AIDS. The faculty members provided up-to-date information and addressed common misconception surrounding the disease, fostering a better understanding among the students.

1. Transmission and Prevention
2. Stigma Reduction
3. Treatment and Support

C.L.O. - 1. Imparting valuable knowledge and fostering a sense of responsibility among students towards combating HIV/AIDS.

2. Participants gained a deeper understanding of the disease.

3. Empowering them to become advocates for prevention, support and inclusivity within their communities.

Activity Name: AIDS Awareness Program

Activity Date: 12/11/2021

Activity Location: Swami Dharmarandhu College of Education

Activity Purpose: To create awareness about AIDS and its prevention.

Activity Method: Through a group discussion and a presentation.

Activity Outcome: The students were able to understand the importance of AIDS awareness and its prevention.

Activity Evaluation: The activity was evaluated by the students and the faculty members.

Activity Conclusion: The activity was a success and the students were able to learn a lot about AIDS and its prevention.

Activity Recommendation: The activity should be repeated regularly to keep the students aware of AIDS and its prevention.

Activity Significance: The activity is significant as it helps in creating a healthy and safe environment for the students.

Activity Impact: The activity has a positive impact on the students' health and well-being.
