Report on

HIV/AIDS Awareness Campaign

The National Service Scheme (NSS) Unit-I of Swami Dharmabandhu College of Education organized an HIV/AIDS Awareness Campaign to promote awareness about HIV/AIDS among the local community. On this occasion, B.Ed. trainees of the session 2026–28 actively participated in the campaign by preparing attractive slogans and awareness messages highlighting the importance of prevention, accurate information, and social responsibility.

As part of the campaign, an awareness rally was conducted from the college campus to Banha Village. During the rally, the trainees raised various slogans to educate local residents about HIV/AIDS, its modes of transmission, preventive measures, and the importance of eliminating misconceptions and social discrimination associated with the disease.

The programme was inaugurated by the Principal, Dr. Sarika Kumari. Addressing the gathering, she emphasized that HIV/AIDS is a significant public health concern and that spreading awareness through education and community participation is essential. She highlighted the importance of accurate information, preventive measures, and timely testing in controlling the spread of HIV infection. She also encouraged the trainees to act as responsible change-makers in society and to promote empathy, dignity, and non-discriminatory attitudes towards people living with HIV/AIDS.

Objectives

- To create awareness about HIV/AIDS among the local community.
- To provide accurate information regarding the modes of HIV transmission and preventive measures.
- To dispel myths, misconceptions, and stigma associated with HIV/AIDS.
- To promote a sense of social responsibility and community participation among B.Ed. trainees.
- To encourage compassion, equality, and non-discriminatory behaviour towards people living with HIV.

Outcomes

- Local residents were sensitized about HIV/AIDS and its prevention.
- Trainees developed awareness about public health issues and community outreach.
- The campaign helped address misconceptions and promote a scientific understanding of HIV/AIDS.
- Trainees strengthened their communication, leadership, and social responsibility skills.
- The programme encouraged empathy and respect towards people living with HIV/AIDS.

Conclusion

The HIV/AIDS Awareness Campaign was a meaningful initiative towards promoting health education and social awareness. The rally provided an effective platform for B.Ed. trainees to connect with the community and disseminate important health-related information. The programme reflected the commitment of NSS Unit-I towards community service, health awareness, and the development of socially responsible future teachers.

All Assistant Professors, non-teaching staff members, and B.Ed. trainees of the session 2026–28 were present and actively participated in the programme.
